Paris, Washington DC, 06.05.2016, 14:45 Time

USPA NEWS - European states are under-performing on defence research and development. In response, the European Union is planning a Preparatory Action on Common Security and Defence Policy-related research. By Daniel Fiott, Researcher, Institute for European Studies, Free University of Brussels, and Renaud Bell

The Armament Industry European Research Group (Ares Group) was created in 2016 by The French Institute for International and Strategic Affairs (Iris), who coordinates the Group. The aim of the Ares Group, a high-level network of security and defence specialists across Europe, is to provide a forum to the European armament community, bringing together top defence industrial policy specialists, to encourage fresh strategic thinking in the field, develop innovative policy proposals and conduct studies for public and private actors.
